Construction of a new building for the Epidemic Diseases Hospital.

...

In December 1916, sanction was accorded to the construction of a new building at an estimated cost of Rs. 75,000 (vide G.P. No. 3775-81/Med. 126-15-6, dated 12th December 1916).

Flag S. D

2 The President, Bangalore City Municipal Council, with the approval of the Senior Surgeon and the Sanitary Commissioner, suggested that the site to the south-east corner of the Basavangudi Extension was suitable. The recommendation was approved. (vide G.P. No. 510-3/Med. 98-16-5, dated 25th July 1917).

Flag G. H

3 The declaration statement received from the President was sent to the Secretary, P.W.D. The acquisition of the site was sanctioned in P.W. Secretary's No. 2617-20/Med. 13337-39, dated 27th November 1918). The declaration statement was published in the Govt. Gazette (vide page 847, Part I, dated 5th December 1918).

Para 25. The construction of a new building at an estimated cost of Rs 75000/- for the E.D. Hospital, Bangalore has been sanctioned. The site to the South East of the Court of Basavanagudi extension has been selected. The President, Bangalore City Municipality reports in his letter, dated 12.2.19 that plans, estimate for the new building have been received for his Countersignature from the Superintending Engineer & will be returned after a scrutiny. The Lany Comr is of opinion that the site chosen is far away from the centre of the city, & the questions of plans & estimate will be considered by the Central Lany Board & that if Govt see no objection, the question of site will also be come into by the Board. As regards new building for the E.D. Hospital at Mysore, the Lany Comr states that no definite proposals have yet been received in his office.

D.O. No. 13

32

The Palace, Mysore,

6th July 1920.

My dear Mr. Humza Hussain,

Could you kindly let me know where the papers about the construction, at Mysore, of a new Hospital for Epidemic diseases, are pending ? The question has long been hanging fire and His Highness is anxious that a decision should be arrived at without further loss of time, as regards the site and plans for the Hospital.

I shall be obliged if you can kindly interest yourself in this matter - if you are not, already - and have it submitted soon, for His Highness's orders.

Yours sincerely,

Mirza M. Ismail

55.

Bangalore,

Dated 8th July 1920.

Issued on 8-7-20.

My dear Mirza Sahib

I am in receipt of your D.O. No.13 dated the 6th instant regarding the construction of a new building for the Epidemic Diseases Hospital at Mysore.

It is proposed to construct the building on a site to the North-East of the present Hospital at the extreme North of Narasimharaja Mohalla. The Senior Surgeon and the Sanitary Commissioner have both approved of the site selected. I also inspected it in company with the Municipal President last month when I was in Mysore and consider it suitable. Plans and estimates for the new building have been called for from the Public Works Department and I shall see that they are prepared and submitted for the orders of His Highness without delay.

Sincerely yours.

Sd/- Mir Hamid Hussain.

5. New Buildings.

An extensive plot consisting of about 153 acres towards the South-Eastern corner of the Basavanagudi Extension has been selected for the construction of the new Epidemic Diseases Hospital and approved by Government in their order No. 510-3/Med: 96-16-5 dated 25-7-1917.

6. The Deputy Commissioner, Bangalore District, hass been authorised to take order for the acquisition of the properties concerned (Vide Government order No. P.W./M.2617-20/13336-39 dated 27th November 1918.) Plans and estimates for the building have been received for my counter signature from the Superintending Engineer with his letter No. 868/E.B./46-J-19 dated 24th January 1919. They are under scrutiny and will be returned to him shortly. I have requested the Deputy Commissioner for information for information regarding acquisition

Letter No. G.C.355-7 dated 22nd February 1919 from the Offg. ~~Sanitary~~ Sanitary Commissioner in Mysore to the Chief Secretary to Govt.

- - - - - -

x x x x x x x

I gather from a report received from the Health Officer that it is proposed to locate the Epidemic Diseases Hospital (Mysore city) about ½ a mile to the north of the present site to make room for a new extension that will be formed on this side of the city. No defenite proposals for rebuilding the Hospital on up to date lines however have yet been received in this office. I am in communication with the President of the Municipal Council on the subject,

Dy 11691 Dary 53-18-7 (47)

Letter No. G.C. 355-8 dated 22nd February 1919 from the Officiating Sanitary Commissioner in Mysore to the Chief Secretary to Govt.

* * * * * *

x x x x x x x

An extensive plot of ground about 153 acres in extent and situated at the South-Eastern corner of Basavangudi extension has been approved by Government in their order No. 501-3/Med 98-16-5 dated the 25th July 1918 as the site for the new Hospital proposed to be constructed. - The Deputy Commissioner, Bangalore District, has been authorised to take order for the acquisition of the properties(Vide Government Order No. P. 88/M. 2617-20/13336-39 dated 26th November 1918). Plans and estimates are reported to have been received from the Public Works Department for the Countersignature of the Honorary President.

5. In regard to the site chosen for the Hospital, I cannot help entertaining some misgiving. The site is situated so far away from the centre of the City that it is hardly likely to induce a desire in the people to seek treatment for infectious diseases in this Hospital in the same manner as they do for non-infectious diseases in say, Victoria Hospital or the Minto Ophthalmic Hospital. The complete dislocation of the institution from inhabited localities is a factor - that tends to discourage people freely from resorting to the Hospital. Discomfort to patients may be minimised and time saved by the provision of motar ambulences and also perhaps by the establishment of a telephone service. Nevertheless a mere sense of the distance may keep - back a large majority of the people who would otherwise gladly avail themselves of the medical aid provided.

6. I believe that in the selection of the present site the aim has been to secure freedom the possibility of the Hospital becoming a source of infection to the neighbourhood. But it must be remembered that, in the absence of legislation for compulsory segregation, at least ten patients remain in their own houses for every one that may seek admission to the Hospital. Now, the danger of infection from every one of such patients scattered perhaps in every locality and in closest proximity to inhabited - houses, is infinitely more real and greater than to be apprehended -

from

48

from the relatively few cases in the Hospital. When, at the same time, it is considered that effective precautions directed towards preventing the possible spread of the infection are the Sine Quo Non of sound Hospital management, it will be obvious that the apprehension is not well-founded.

7. I have requested the Chief Engineer to forward the plans and estimates for consideration at a Special meeting of the Central Sanitary Board. If Government see no objection, the question of the suitability of the present site may also be considered by the Board.

Epidemic Disease Hospital, Bangalore

Dates	Action Taken
G.O. No. 3775-81 Mid 126-15-6-17 / 12th Dec. 16	Government approved of a building being constructed for the Epidemic Disease Hospital at a cost of Rs. 75,000, but the Sanitary Commissioner was ~~refused~~ requested to submit definite proposals as to the site to be finally selected, and the Chief Engineer was to consult Senior Surgeon in the preparation of plans, estimates &c.
17-2-17	The Chief Engineer in company with the Honorary President and the Senior Surgeon inspected the sites proposed for the Joint Lunatic Asylum &c and the officers were unanimously of opinion that the ground on the other side of the water course in the village of Hangkanapalya would be an ideal site.
25-7-17 G.O. No. 5510-31 Mis 98-16-5	Government approved of the site selected by the above mentioned.
1-8-17	The Site plans with levels was sent to the Architectural draftsmen for a design.
6-10-17	The Architectural draftsman submitted to the Municipal President, plans and estimates, the latter amounting to Rs. 2,05,177 for the Hospital.
29-11-17	In a letter to the Sanitary Commissioner, the Municipal President in criticising the accomodation provided in the project for wards and quarters for Servants and the design for the administrative block desired that the scheme should be revised so as to restrict the outlay to Rs 75,000 and the Health Officer should be consulted by the Architectural Draftsman.

53

7-12-17	The Sanitary Commissioner returned the project to the Chief Enquirer with the above Observations
9-1-18	The Superintending Enquirer was asked to modify the designs accordingly and furnish estimates after Consulting the Sanitary Commissioner & the Health officer and the President of the Municipality.
30-4-18	Sanitary Commissioner ~~refused~~ requested the Chief Secretary to obtain Government sanction for the acquisition of the lands ~~refused~~ required, which were valued at Rs 33,481.
	The Architectural Draftsman was asked to prepare suitable designs
24-7-18	Sanction was accorded to the acquisition of the lands ~~refused~~ required at the South eastern corner of Basa-ngangudi extension.
27 Nov 1918	Declaration statements were published in the Gazette and the Deputy Commissioner was ~~refused~~ requested to take order for the acquisition of the lands
24-1-19	The Plans and estimate were sent to the President, Municipal Council, for Countersignature and transmission to the Sanitary Commissioner for Countersignature.

Hospital in Bangalore.

29 APR 1919

Proceedings of the Central Sanitary Board in Mysore

C.S.B No. 6
26.4.19

A meeting of the Central Sanitary Board was held at Grace Ville at 3 P. M. on Wednesday the 16th. April 1919 to consider (a) the question of a new site, other than that already approved by Government, for the Epidemic Diseases Hospital at Bangalore and (b) the site plans, design and estimates for the Hospital.

2. The members present at the meeting were:-

(i) Rajakarya Pravina Rao Bahadur Mr. T. V. Arumugum Mudliar (President)

(ii) A. K. Pani Esq., Offg. Sanitary Commissioner

(iii) V. L. Manker Esq., Assistant Director, Public Health Institute

(iv) S. Srinivasa Iyer Esq., Executive Engineer, Water Supply and Stores Division.

Dr. T. S. Nanjappa and the Rev. Mr. A. E. Nightingale wrote regretting their inability to be present at the meeting.

3. The following papers were read:

(i) Government order No. 5113-63 San. 86-13-35 dated the 8th. February 1917 prescribing rules to regulate the work of the Central Sanitary Board

(ii) Government order No. 3775-81 Med. 126-15-6 dated the 12th. December 1916 directing the construction of a new building for the Epidemic Diseases Hospital at Bangalore at a cost of Rs. 75,000

(iii) Government order No. 510-3 Med. 98-16-5 dated the 25th July 1917 approving the site recommended by the Senior Surgeon, the Sanitary Commissioner, the Chief Engineer and the City Municipal Council and situated at the south-eastern corner of the Basavangudi extension

(iv) Letter No. 2315 dated the 25th. February 1919 from the Honorary President, City Municipal Council, Bangalore, forwarding plans and estimates received from the Superintending Engineer, Southern Circle, for constructing an Epidemic Diseases

Hospital

57

Hospital

(v) Correspondence ending with the Chief Secretary's letter No. G. 20,984 San. 53-18-8 dated the 13th. March 1919 addressed to the Offg. Sanitary Commissioner, stating that the plans and estimates for constructing a new Epidemic Diseases Hospital in Bangalore as well as the question of a new site for the Hospital may be referred to the Sanitary Board for opinion; and

(vi) Note by the Offg. Sanitary Commissioner explaining that the Hospital, if built on the site to the south-eastern corner of the Basvangudi extension, is not likely to be popular on account of its distance from inhabited quarters in the City and proposing ~~an alternative~~ a new site in the neighbourhood of the present Octroi Ookad on the Mysore Road.

4. In inviting discussion, the President pointed out that the fact of the Government having permitted the consideration of the question of a new site for the Hospital held no implication of any rescindment of the orders already passed by them approving the site near the Basavangudi Extension: and that the suitability of the new site had therefore to be considered on the merits of the case without reference to or comparison with the site already approved .

5. After full discussion the Board resolved:

(i) that the site proposed by the Sanitary Commissioner, being centrally situated with reference to the whole city area, is well suited for an epidemic diseases hospital; ~~and~~

(ii) that, as regards the design and plans for the Hospital, those now proposed are unsuited and

(iii) that the Sanitary Commissioner be requested to have a suitable design and rough plans prepared for the consideration of the Board.

No. G.C. 226-4 Office of the Senior Surgeon in Mysore,

Bangalore, 7th April 1921.

FROM

The Senior Surgeon with the Government of
His Highness the Maharaja of Mysore,
BANGALORE.

To

The Secretary to the Government of Mysore,
Revenue Department,
BANGALORE.

Sir,

Referring to your D.O.No.G.17505/Sau of the 12th ultimo, calling for my opinion on the site selected for the construction of a new Epidemic Diseases Hospital, at Bangalore, I have the honour to state that I am not in favour of the present site for the following reasons:-

(1) The present site is an irregular and a lopsided block, a portion of the ground being bounded behind by a high wall of Binny & Company and on the right side, it is surrounded by low lying and water logged fields, over-grown with weeds, which form a suitable nidus for the propagation of malaria. Another portion of the ground extends along the side of the road and this is separated from the 1st block by a narrow strip of ground. If this site is selected, the main Hospital building and the staff quarters and Isolation sheds must necessarily be in isolated groups involving great difficulty of supervision. What we want is a compact site where all the necessary buildings could be built in their regular order and within easy reach of each other to facilitate proper supervision.

(87)

(2) The Present site is not central. It is situated in an out of the way corner of the City, not easily accessible to the general public.

(3). Its approaches are unsightly and dismal looking.

(4). A Hospital should have pleasant and healthy surroundings which are lacking in this site. The low lying water logged fields adjoining this site are highly objectionable in a sanitary point of view.

(5). There is a possibility of selling this land by auction for a respectable figure, considering the present market value of such land. Messrs. Binny & Co., who adjoin the property, are willing to purchase the whole site. The money realised from the sale could partly meet the cost of a new Hospital to be built on a better and central site to be selected hereafter.

(6). The name "Magady Camp" spells a certain amount of horror in the minds of people, as though it is a place of exile never to return therefrom. Such has been its past reputation as a life saving institution. Therefore, it is necessary that a different site should be selected to avoid its past association.

I have the honour to be,

Sir,

Your most obedient servant.

Office of the Senior Surgeon, M.G.,
Bangalore, 26th May 1921.

From

The Offg. Senior Surgeon in Mysore,
BANGALORE.

To

The Secretary to the Government of Mysore,
Revenue Department
BANGALORE.

Sir,

In reply to your letter No.G.19752-San.83-18-39, of the 18th April 1921, I have the honour to submit herewith a plan in which the area coloured pink and brown shows the site selected by me in consultation with the Sanitary Engineer and the Health Officer of BangaloreCity, for the erection of the new Fever Hospital. There are about 19 acres of land available to meet our present requirements and this is the only central site available for the Hospital, which will meet the convenience of the inhabitants of the City. As pointed out by me, before, a Hospital must be within easy reach of the public. The prevalent idea that Epidemic Diseases Hospitals should be located far away in the outskirts of the town, for the fear of spreading infection, should be dismissed with contempt. No place is safer than an Epidemic Diseases Hospital to prevent the spread of infection.

2. The land adjoining the selected site and the main drain which is somewhat water logged, is capable of utilization by deep drainage as pointed out by the Sanitary Engineer. To allow such a piece of ground in the heart of the City to remain un-utilized on the plea that it is water logged, is a sad confession of our incapacity to apply the science of Sanitary Engineering to the best advantage.

To

B. Ramasawmaiya, Esq., B.A.,B.L.,
Secretary to the Government of Mysore,
Revenue Department, BANGALORE.

Sir,

With reference to your letter No. G. 24052/San. 53-1 18-41 dated the 8th June 1921, I have the honor to state that I inspected the site selected for the erection of the new Epidemic Diseases Hospital in the Bangalore City.

2. The site is a vast expanse of water-logged gardens with numerous wells studded in them. It forms part of the lower end of the valley through which the main sewer for the City runs. The conditions are thus ideal for the propogation of malaria, not merely on account of the intense water-logging but on account of the innumerable wells existing in the area.

3. It may be true that deep drainage is to some extent a remedy but I take it that we are not going to make the construction of the Epidemic Diseases Hospital an occasion for reclaiming the area by dint of expenditure. The amount of compensation for the gardens alone will reach a prohibitive figure. Even if the land is acquired and subsoil drainage is carried out, it will still remain a highly malarious zone considering the natural low level of the area, the innumerable wells and the proximity

193

of the main sewer. There is the risk - and the risk is very real - of the "Fever Hospital" which is intended to cure patients of one kind of fever infecting them with another of a more persistent nature. I may add that in the case of the bungalows farther down on the Lalbagh Road, the residents are constantly subject to malaria, although the locality is on a higher level and the bungalows are given a high basement.

4. For these reasons, I cannot recommend the proposed site as suitable for the Epidemic Diseases Hospital. The locality is being put to the best possible use as vegetable gardens.

5. The tracing is herewith returned.
